HER LITTLE GIRL

SUFFERED GREATLY

After Sickness She Was Left Weak,
With No Appetite or Strength.
Took HYPO-COD.

VHE LITTLE GIRL

IMPROVED RAPIDLY

"My little girl aged 11 years suffered a good deal after her attack of sickness and she grew weak and thin and could hardly be prevailed upon to eat even a mouthful at meal times. She was nervous, too—poor child and would toss, twitch and jump in her sleep something dreadful. The doctor said she had adenoids and throat trouble but we dreaded to think of an operation and it was out of the question while she was still so weak and run-down.

Gave Her Hypo-Cod

"We gave her Earle's Hypo-Cod and it has helped my daughter so much I gladly join with the rest and recommend it as a tonic. Her nervous condition began to vanish. She now sleeps peacefully nights and her appetite is somewhat improved for she is eating better than she did. Her throat trouble is some better too, and I believe it will entirely disappear after she has taken it a few days more," declared another of the many who are converted to the new Earle's Hypo-Cod. Mrs. J. F. Hartis, 912 E. 7th St., Charlotte, N. C.

Earle's Hypo-Cod is one of those powerful Hypophosphites, Cod Liver oil, malt, iron, cherry bark preparations which are perfectly safe to give to the smallest child. Directions for their use are on each bottle and children like its pleasant taste. It surely will make a puny, weak and sickly looking child pick up weight, strength, energy and vitality quickly. Come down to the drug store and get a bottle if you have a little one in the family not in robust health and spirits. (We gladly prepay Earle's Hypo-Cod anywhere on receipt of price \$1.20 plus 5c war tax. L. G. Fox, Rockingham.)
